

ERNEST Azumah

Full Stack Developer

About Me

Self-taught full stack developer skilled in React, Node.js, Express, PostgreSQL, Prisma, OAuth 2.0, and Neon. Passionate about building clean, responsive, and user-focused web applications, with a strong emphasis on continuous learning, teamwork, and solving real-world problems.

Skills:

React	OAuth2.0
Tailwind css	Prisma
Node js	Firebase
Express	Git
PostgreSQL	Github

Education:

Kwame Nkrumah University of Science and Technology (KNUST)

BSc. Telecommunication Engineering |
2023 – 2027

Pursuing a degree in Telecommunication Engineering while independently developing full stack skills through hands-on projects and continuous learning.

Professional Experience:

Library Manager

- Developed a web-based library management system for a client, enabling users to browse books, borrow and share resources, receive notifications, and manage accounts with secure authentication.

EasyMarket

- Built an offline shopping list application for a client, allowing users to add and track items, calculate totals in real time, and save or share their shopping lists.

Personal & Learning Projects (Scrimba)

- Developed multiple interactive applications including games, utility apps, and API-driven tools, demonstrating strong skills in React, state management, user interaction, and responsive UI design.

Personal Profile

- Committed to continuous growth both technically and personally, with strong collaboration skills and a genuine respect for people, focused on building meaningful and impactful solutions.
